

MAHARISHI

YOGIC FLYERS (SIDHAS) IN EVERY COUNTRY

Crowning their Nations with Invincibility

It will be fortunate for Yogic Flyers in all countries to come out and demonstrate the strength of their achievement. What they can achieve is invincibility for their nation by flying together in 4-5-6 big groups in their own cities depending on the number of Sidhas (Yogic Flyers) in their own country.

There are more than 30 countries where the number of Sidhas is very much more than is needed to make national consciousness invincible. Only the group effect has to be created by group Yogic Flying. Sidhas are very strongly invited by Maharishi to give a gift of coherence and positivity in their own country and the whole world.

All Sidhas living close by in different localities of any city should rent a hall in their own locality, and gather there in the morning and evening to fly together, and they will create invincibility for their national consciousness.

This opportunity is being given to the fortunate Sidhas in every country—in every city of all the countries where the Movement has centers for teaching Transcendental Meditation and its Advanced Techniques, including Yogic Flying.

Maharishi University of World Peace in Switzerland has decided to offer a Certificate of Honour to the Yogic Flyers who participate in this global program for at least three months, which will be a distinction for the

whole family for all future by doing nothing new. What they are doing at home—Yogic Flying—they will do with other people in the Yogic Flying hall of their community.

Through this program we will be celebrating Victory of our 50-year Movement in the world during this year of 2006.

Sidhas are invited to create a really enlightened world that will be a joy forever.

The program of national invincibility will begin from 1st September and the National Leader should inform the International Office of World Peace that the program has begun with the names of the participants.

The effect of it must be recognized by everyone everywhere in the world by the 7th September. Then the uncertainties and difficulties in international life will be seen disappearing by everyone in the world, and this only will be the proof that group Yogic Flying is a direct means of achieving invincibility in national consciousness and in the world as a whole.

This call is being internationally advertised in the hope that the information reaches the Sidhas (Yogic Flyers) and they will act on it. Sidhas, inform the national center of Maharishi's Movement of your participation so that we may know to include you in our global ceremonies around the world week after week.

“Sidhas come and enjoy the applause of the world for immediately creating a peaceful world through their adjustment of Yogic Flying with others rather than alone at home—flying in bigger groups in their own localities.” —Maharishi
